GRAVE PROPORTIONS.

Cuban Revolution Is Declared to
Be on Increase.

ISLAND IN A FERMENT

It Is Believed by Many Business Men
That Annexation on the Part
of the United States Will
Be Necessary.

New Orleans, Aug. 23.—The Picayune's special cable from Havana says: In spite of the government denials, the insurrectionary movement in Cuba has reached formidable proportions.

The whole island is in a ferment over the uprising, and it is impossible to predict at this time what the final result will be. The government claims that it will be able to suppress the revolt in two or three weeks, but conservative people who have been closely watching the drift of events do not believe the rebellion can be crushed so easily. The revolutionists have been preparing for the struggle ever since the presidential election, and the Palma administration has underestimated their strength.

It is known that several cargoes of arms have been landed in Cuba from the Florida coast during the past two months, and the insurgents are abundantly supplied with war material. It is believed by many Havana business men that it will be necessary for the United States to intervene and annex the island.

NUNEZ'S CLOSE CALL.

Attempt Is Made to Assassinate Gov-
ernor of Honduras Province.

Havana, Aug. 23.—An attempt was made Wednesday evening to assassinate General Emilio Nunez, governor of the province of Havana. A man had a revolver leveled at the governor as he was entering his home. Another man who was passing by saw the would-be assassin and cried out, whereupon Governor Nunez turned, and drawing his revolver fired over the miscreant's head. The latter was so surprised that he dropped his revolver. He was promptly arrested. His identity is not known, but he is a white man, and was well dressed.

A telegram to the government stated that Major Laurent, with his detachment of rural guards, fought Cuera and his 300 men for three hours Wednesday, completely defeating him, killing or wounding many insurgents and taking three prisoner. The dispatch adds that the rebels dispersed in all directions, being chased long distances. None of the rural guards was hurt. Another portion of the insurgent forces continues in occupation of San Luis.

GALBRAITH ON STAND.

Alleged Mob Leader Did Not See
First Negro Lynched.

Springfield, Mo., Aug. 23.—Doss Galbraith, the alleged mob leader, took the stand in his own behalf to prove that he was not active in the lynching of the three negroes taken from the jail here in April last, and strung up on the public square. Galbraith declared emphatically that he did not reach the public square until after the first negro had been hanged, and while the members of the mob were drawing up the second negro. He declared that he was at home by 11 o'clock, before the third negro was lynched.

The spectators applauded loudly when Galbraith left the stand.

RADICAL DEPARTURE.

Nebraska Republicans Favor Primary
Nomination of Candidates.

Lincoln, Aug. 23.—The state Republican convention nominated a ticket headed by Norris H. Brown for United States senator and adopted a platform which is, in some respects, a radical departure from past party declarations in that it demands "a new deal in the levying of railroad taxes and for railroad regulations and commits the party to a direct primary method of nominating officers. Convention adjourned at 2 o'clock Thursday morning.

MORTALLY WOUNDED.

Patrol Fires Into Crowd, Killing One
Man and Injuring Several.

Warsaw, Aug. 23.—Count Fiermor a colonel on the general staff and aide de camp to the governor of Warsaw and who is a member of one of the most aristocratic Russian families, was mortally wounded in Marshalkowsky street by revolutionists. The count's assailants fled after firing ten shots. A patrol came up immediately after the affair and discharged a volley into the crowd, killing one man and wounding several.

Generous Brazil.

Rio de Janeiro, Aug. 23.—The Brazilian congress has voted an appropriation of \$666,000 for the relief of the sufferers of Valparaiso earthquake.

GO THROUGH DIRECT

Western Railway to Perform Great
Engineering Feat.

FORTY-FIVE TUNNELS

One Will Be Seven Thousand Feet
Long, Another Four Thousand
and a Third to Penetrate
Much Solid Rock.

San Francisco, Aug. 23.—The Western Pacific railway is perfecting plans to enter California, and when the road is completed it will be one of the greatest engineering feats of modern times. The engineers in charge have one object in view: The straightest line with the least grade. To accomplish this forty-five tunnels will be bored in eastern California between Orrville and Beckwith Pass.

Instead of going around the mountains the Western Pacific is going through them. The longest of the tunnels will be at the head of Spring Garden, twelve miles east of Quincy. This will cut under the ridge dividing North and Middle forks of Feather river. It will be over 7,000 feet in length. The next longest tunnel will be the one under Beckwith Pass. This will be over 4,000 feet in length and is being bored at both ends.

The third tunnel will probably be the most difficult engineering feat of all, as it will be cut through solid rock for a distance of 1,200 feet. This will be north of Quincy on Spanish creek.

INTEREST REVIVED.

Fund Goes to Support of Family of
Late Walter Reed.

Washington, Aug. 23.—Interest in the Walter Reed memorial fund has been revived by a book entitled "Walter Reed and Yellow Fever," which Professor Howard A. Kelly of Johns Hopkins university has just published. Surgeon General O'Reilly of the army medical department and other prominent army and navy surgeons as well as scientists throughout the United States and many foreign countries interested themselves in the movement to provide a fund for the support of Mrs. Reed and her children, which shall eventually be used in erecting a memorial to the distinguished physician, who demonstrated that mosquitoes are responsible for the spread of yellow fever. The purpose of the originators of this movement is to raise \$25,000. Of this amount only \$16,000 has been subscribed, but it is hoped the book of Professor Kelly will revive interest in Major Reed and his achievement and make it possible to complete the fund.

BANDERA SLAIN.

Negro Insurgent General Killed In En-
counter With Rural Guards.

Havana, Aug. 23.—General Quintin Bandera, the famous negro leader of Havana province, who recently headed an insurgent band and began operating against the government, was killed early Thursday morning in an encounter with rural guards. The fight with the Bandera band occurred at 3 o'clock. A force of 100 mounted rural guards, which had for three days been seeking to surround the insurgents' force, commanded by Bandera, finally succeeded after the veteran commander had pitched his camp for the night. In addition to Bandera two of his followers were killed, but none captured.

HARD ON POOR.

Suffering in the Tenement Districts In
Chicago Is Intense.

Chicago, Aug. 23.—The suffering in the tenement districts of the city is intense and the health authorities declare that the inability of the poor people to purchase ice and pure milk is causing an alarming increase in the death rate among infants. In the crowded Ghetto district, where several families are often quartered in one room, the conditions are almost unbearable. Thousands fled to the open streets and alleys and passed Wednesday night there. Porches and fire escapes on the tenements were crowded by sleeping women and children, and the roof provided resting places for groups of sweltering humanity. Many also spent the night in the parks.

SMITH WAY AHEAD.

Will Enter Convention With Approxi-
mately Three Hundred Votes.

Atlanta, Aug. 23.—Returns from the Democratic primaries up to noon Thursday show that Hoke Smith has an unprecedented majority. With all returns but three remote counties of the 145 heard from, the unofficial figures show that he will have 300 convention votes, which will nominate him. Total convention vote is 366. The convention will be held at Macon Sept. 4.

BOB TAYLOR ON TEXAS.

If you are feeling blue, have a bad taste in your mouth, and imagine your lot is not cast in the best country on earth, just read the following, and you will be made happy again:

"O, glorious Empire State of the sun kissed South! With thy one hundred and seventy-five thousand square miles of as rich a country as was ever tickled by the plow or the pick, and as ever laughed at a harvest of corn and cotton for the happiness of man! With thy cattle on a thousand hills, thy countless flocks, thy gushings wells of oil, thy fields of rice and sugar cane stretching far away like the sweet fields of Eden on the other side of Jordan! With thy brave men and beautiful women! Out of thine unwasting fatness thou canst feed and warm the world! And thou canst furnish wives for all the bachelors and husbands for all the old maids! I wonder why the poor huddle in the smoke and filth of crowded cities when Texas smiles and beckons them to her landscapes of beauty, where prairie flowers bloom and the sunshine plays with the zephyrs from the gulf, and sometimes scuffles with a cyclone. I wonder why toiling millions dwell amid blackened walls only to be slaves to heartless masters when untouched fields invite the happy home and virgin soil still waits for the plowman and his merry song. I wonder why helpless children are doomed to die by thousands in polluted hovels and crowded alleys when the green meadows of Texas bid them come and chase the butterflies among the blue-bells and the daisies, and blossoming hills call them hither to romp and play, where the happy birds sing and the cows come home in the evening fragrant with the breath of alfalfa and the sweet wild grasses of the plains."

For fine fresh bread and cakes of all kinds call at the Texas Bakery. Careful attention to special orders. Phone 89. Mrs. Otto Boehme. tf

BRYAN, TEXAS, AUGUST 24.

Gov. Campbell has a fine platform and asserts that he is going to deliver the goods.

There is a growing sentiment in Texas for fewer elections and longer terms of office.

The effort to enthuse Col. E. H. R. Green about republican politics in Texas the past few years has been singularly lacking in tangible results.

The end of free passing is in sight if there is any virtue in a platform demand. The plank on this subject bristles with too many splinters for sliding over.

Secretary Root's popularity in South America has been attracting wide spread attention. If Secretary Taft or Uncle Joe Cannon don't suit the republicans they could do far worse than nominate Root.

WORK OF RESTORATION.

Everybody at Valparaiso Assisting in Bringing Better Conditions.

Valparaiso, Aug. 23.—Some business houses here reopened Thursday for the first time since the earthquake.

Telephone and telegraph communication with Santiago has been re-established, but lines are used almost exclusively by government officials. The city is still under martial law. Traffic ceases at 6 o'clock in the evening and everybody is compelled to take part in the work of restoring normal conditions.

The first installment of government appropriation of \$4,000,000 for relief of the destitute has arrived. The customhouse has reopened and traffic by water and by rail has been resumed. Postal service is also in operation.

One of the greatest difficulties encountered by the authorities is the interment of bodies recovered from the ruins, as all cemeteries were destroyed. At various temporary morgues heaps of coffins have accumulated awaiting the designation of their place of burial. The work of recovering the bodies is being pushed to the utmost in order to avoid an epidemic, in fear of which many families are leaving the city.

Through the whole length of Brazil avenue and all over Victoria square large sheds have been constructed to shelter the homeless from severe rains.

Survivors of the earthquake say that during the shocks it was impossible to stand erect without support.

A movement is on foot to organize a company to facilitate the raising of money necessary to reconstruct the city. It is proposed to advance the sums needed without interest for the first six months. The plan is to construct new buildings of light materials and lay out streets so they will have a uniform width of twenty metres. All provinces north and south which have not suffered from the earthquake are sending supplies of food and money to the stricken cities and towns. The department of public works at Santiago has appropriated \$100,000 for construction of sheds to shelter refugees from Valparaiso and elsewhere, who continue to arrive at the Chilean capital in large numbers.

The railroad between Limache and Quilpué, in addition to suffering badly from earthquake shocks Aug. 16, has several enormous crevices newly formed in its vicinity.

Valparaiso is still without street lights, but order is maintained owing to the severity of authorities, who shoot all persons caught committing robberies. Among the buildings which fell were the palace of justice and maritime prefecture.

HOKE SMITH WINS.

Indications Are He Has a Majority of the Primary Vote.

Atlanta, Aug. 23.—At midnight Wednesday night indications were that Hoke Smith had not only carried a majority of the 142 counties for the Democratic nomination for governor, but has a majority over all opposing candidates, insuring his nomination in the state convention on the first ballot.

W. R. Joyner was nominated for mayor of Atlanta by 255 majority.

For governor five candidates were balloted for. Clark Howell, editor of the Atlanta Constitution; J. P. Estelle, editor of the Savannah News; Hoke Smith, former secretary of the interior under President Cleveland; Judge R. B. Russell, a prominent attorney of Jackson county, and James H. Smith of Oglethorpe county. The particular interest in the campaign was between Howell and Smith. The latter began his campaign through the state more than fourteen months ago. He has opposed Mr. Howell on the charge of being the representative of the so-called "railroad ring." The question of negro disfranchisement also entered in the discussions of the campaign. The method by which this ture reached an almost intolerable dequestion most considered.

For the rest of the state ticket there has been little opposition, all the present incumbents being candidates for re-election. For the offices of school commissioner and comptroller only the only gave the present incumbents any opposition. Senator Bacon was unopposed.

Returns from the Third congressional district show that Congressman Lewis has been renominated. In the First district J. W. Overstreet was nominated to fill the unexpired term of the late Rufus E. Lester. Walter Sheppard of Chatham was nominated for the regular term.

At St. Louis there was one death and two prostrations. Maximum temperature was 90. There were two prostrations at East St. Louis.
